Facilitator Skills for the Virtual Classroom

WHO NEEDS THIS PROGRAM?

Learning did not cease because of the 2020 pandemic. Most companies switched their critical learning needs to a virtual format as it was imperative that their employees continue to **hone existing skills and acquire new skills** to remain relevant in the modified business climate.

The challenge within virtual learning is not technological. Rather, it is directly tied to the required redesign of those learning modules, and a **unique skill set needed by people** who lead virtual classes.

A well-trained facilitator has the skills to **maintain engagement** in a virtual classroom, which makes the learning more meaningful and boosts knowledge retention.

LEARN HOW TO:

- Organize a **virtual class space** to promote the ability of a facilitator to relate directly to participants.
- Learn four different methods of questioning to increase interaction.
- **Practice using techniques** such as breakout groups, polls, chat functions, and in-session screen annotation to increase the ways people can interact.
- Discover how to “chunk down” content to create more focused deliveries and improved learning.
- **Discover peer learning exercises** that you can deploy to help create teams within the virtual class space.

WHY US?

Intrastellar Group team members have more than three decades of experience in designing and delivering virtual learning. Let us help enhance your virtual programs for enhanced results.
